

Probate Fees

Applying for the grant, collecting and distributing the assets.

We estimate that this will take between 7-12 hours at the rate of £210 per hour plus vat being £1520 -£2750 plus vat and disbursements.

The exact cost will depend on the estate composition and number of beneficiaries. Crucially unlike many solicitors we do not charge an additional fee for the value of the estate (usually 1.5% of the gross value of the assets). In addition we will provide you with a written estimate before we start working on your behalf.

We will handle the full process for you. The examples given above are for estates where :-

1. The gross value is less than £325000
2. There is a valid Will
3. There is no more than one property
4. There are no more than 1-5 bank or building society accounts
5. There are no other assets such as shares, bonds or investments
6. There are no disputes on division of the assets between the beneficiaries
7. There are no claims against the estate
8. All assets, beneficiaries and executors are based in the UK

There are additional disbursements payable in addition

Probate court fee £155.

Official copies £1.50 each.

Bankruptcy land charges search £2 per person

There are additional fees for adverts to protect against unexpected claims which we can arrange.
